Business:

1. CHOOSE A BUSINESS MODEL.
Do you envision your business being just you behind your laptop, or do you envision having hundreds of employees some day? It's important to decide WHAT size business model that you dream of
having. Do you want a 1.) Micro Business where it's just you? A 2.) Small business where it's you and 1-15 employees? Or 3.) A large company that will expand to hundreds of employees and will
eventually take over the world? (Although you can certainly take over the world by yourself too!) It's really important to have a clear vision on the scope of your dream business before you begin!
Business model: just me

2. FIGURE OUT WHO YOUR IDEAL CLIENT IS.
This one is so important! What type of person do you envision selling your services or products to? Get REALLY specific on this. In fact, take 20 minutes to do a complete write up of your ideal client. Their
age, their income level, their interests, their dreams, their frustrations, the problems that they need solutions to, how many ice cream cones they eat in a week, how many ice cream cones they DON'T
eat in a week, (okay forget those last two suggestions and mega BONUS POINTS if you know what movie I was starting to quote!)
Ideal client: age varies, income level varies by business/non-profit, loves animals & looks out for their welfare

3. DETERMINE YOUR START-UP COSTS.
How much money do you need to get started? My advice is to TRY not to go into debt if at all possible, although depending on what type of business you're starting that may be easier said than done. Save
money and start small though. When I first started my photography business I saved money and then purchased the bare essential photography equipment that I needed. Sure it was super tempting to go
out and buy a million different lenses, but I didn't lose money this way. I purchased more equipment as my business grew and I made more money.
Ideal: looking to diy stuff until money starts coming in if possible

4. DECIDE WHAT SERVICES/PRODUCTS YOU'D LIKE TO OFFER.
Again, be specific here! Don't just answer something vague like, "Life Coaching." What does that mean exactly? What exactly are you offering to your ideal client to make their lives better? Write down all
the services and/or products that you'd like to offer that fit within your niche. What are you interested in that people will also pay you for vs what you're simply interested in?

5. CHOOSE YOUR BUSINESS NAME.

This part is fun! Make sure your business name fits who you are but also appeals to your ideal clients. Some questions to consider when choosing a business name are ... * Does this name fit you as a person? * Do you intend to sell this company? (Because if so, you probably don't wanna name it after yourself!) * Will you still like this name 5 years from now? * Are there any other well known businesses (or local businesses in the area) with this name already? (Don't forget to check!) * Is the domain for your chosen name available? * Will your name be confusing to others?

Name: ***Permafrost Photography & Design***

6. REGISTER YOUR BUSINESS NAME!

This part isn't quite as fun as choosing the name, but you still gotta do it. If your name is available you need to register it with the county clerk and have it trademarked at the state and federal levels.

7. DEVELOP YOUR BRAND.

Now THIS is where the fun starts ... I frigg'in love branding!!!!! Ehem. No but really, it's so much fun. Your brand is the visual face of your business. It should encompass who you are and what you're about.

Your brand should be unique because your brand is YOU. If you're into branding and design, you can go through this process with yourself. Create your mood board, your colors, your fonts, your logo ... you know ... all that good stuff. Every detail should be carefully thought out to make sure that it matches your vision. If you're NOT branding obsessed, (like me,) then find a designer who you love to create a brand for you.

Logo: wolf (Sam) paw with camera lense as biggest pad; colours: black & white typeface, blue shades logo; need to create mood board (visual part of brand)

8. CREATE A BUSINESS PLAN.

Yes, this is a must! Write out your goals for the year, and the specific actionable steps that you are going to take in order to achieve them. What is your income goal for the year? How many services/ products do you need to sell to reach that goal? What are your business expenses? What is your weekly work schedule going to look like? Write it all down, baby! (I wrote an entire blog post on HOW to write a creative business plan here, and it includes a free editable template!)

*1. **Overview:** Why? Help people, work from home, do something I WANT to instead of something I have to*

*2. **Goals:** 6 months: buy my own groceries, pay my own bills; 1 year: cover all expenses, start saving for building own place; 5 years: own place built/building, enough to support chosen charities in addition to previous goals*

***Who is this for?** AK community breeders, horse breeders, stables, tack shops, pet shops for more exposure, shelters for more adoption chances, sanctuaries for donations to support their animals, veterinary clincs, photography for creating memories of pets/horses*

***How can you fund this business?** Hoping to survive without spending nothing at all if possible until cash flow is good enough.*

*3. **Customers:** local: new startups/redesigns - horse breeders & stables (like Dawnville), pet shops (like Global), tack shops, shelters (like EHS), veterinary clincs (like The Pet Hospital), pet/horse photography (Alberta), abroad: AK websites for new breeders, horse photography, sanctuaries (like TWS)*

*4. **Products/Services:** web design & development, logo/brand design, photography*

*5. **Process:** Creative questionnaire (website/logo), creative brief, sketches/*

website plan-outs, design stages (Design), pricing PDFs for design/photography, shoot booking (Photography)
6. ***Marketing & Sales:*** *Instagram, Pinterest, Facebook, LinkedIn (?)*
7. ***Finance:*** *Hoping to DIY everything until I have a stable income.*

business plan questions:
how does my brand design, web design/development help my target clients?
how do I present my services (brand design + web design/development) as a solution to my target clients' problem?

9. DECIDE ON YOUR PRICING.
Are you going to charge by the service or by the hour? How are you going to price your products? To help figure out how much you should charge for a service, first figure out how much TIME you will put
into that particular service by writing out ALL of the steps you will need to do from start to finish in order to complete that service. So for example, when deciding on how much to charge for my wedding
photography, I made a list of ALL the steps I would be going through to complete that service. The consultation, the e-mails, the driving, the engagement session, the planning, the editing, creating the
bride's timeline, blogging, shooting, etc. After I figured out how many hours I'd be putting in, I then figured out how much money I'd like to make per hour, taking into account taxes! (Nearly 1/3 of what I
make - yikes!) And if you feel inclined, you should check out this post on how to figure out your pricing as a creative freelancer!

4. Expenses
5. Cancellation
All invoices are payable within 30 business days of receipt. A $10 service charge is payable on all overdue balances for reissuing each invoice at 60 and 90 days from the date of original invoice. The
grant of any license or right of copyright is conditioned on receipt of full payment. The Client shall assume responsibility for cost outlays by designer in all collections of unpaid fees and of legal fees necessitated by default in payment. Invoices in default will include but are not limited to
fees for collection and legal costs.
The Client must assume that all additions, alterations, changes in content, layout or process changes requested by the customer will alter the time and cost. The Client shall offer the Designer the first
opportunity to make any changes.
The Client shall reimburse the Designer for all expenses arising from this assignment, including the payment of any sales taxes due on this assignment, and shall advance the Designer for payment of said
expenses, including but not limited to Stock Photography, Artwork and/or material needed for the project.
In the event of cancellation of this assignment, ownership of all copyrights and the original artwork shall be retained by the Designer, and a cancellation fee for work completed, and expenses already
incurred, shall be paid by the Client. Cancellation fee is a percentage based on the time estimate for the entire job. A 100% cancellation fee is due once the project has been finished, whether delivered to
the client or not.
6. Ownership and return of artwork
The Designer retains ownership of all original artwork, whether preliminary or final, and the Client shall return such artwork within 30 days of use unless indicated otherwise below. If transfer of ownership
of all rights is desired, the rates may be increased. If the Client wishes the ownership of the rights to a specific design or concept, otherwise below. If transfer of ownership of all rights is desired, the rates
may be increased. If the Client wishes the ownership of the rights to a specific

design or concept, these may be purchased for a percentage of the entire project cost.

7. Credit Lines

The Designer and any other creators shall receive a credit line with any editorial usage. If similar credit lines are to be given with other types of usage, it must be so indicated here.

8. Releases

The Client shall indemnify the Designer against all claims and expenses, including attorney's fees, due to the uses for which no release was requested in writing or for uses that exceed authority granted by
a release.

9. Modifications

Modifications of the terms of this contract must be written and authorized by both parties, involving the implementation of a new version of the contract as a whole following standard procedures of
documentation and approval.

10. Uniform commercial code

The above terms incorporate Article 2 of the Personal Property Security Act.

11. Code of fair practice

The Client and the Designer agree to comply with the provisions of the Code of Fair Practice (which is in the Ethical Standards section of chapter 1, Professional Relationships).

12. Code of fair practice

The Designer warrants and represents that, to the best of his/her knowledge, the work assigned hereunder is original and has not been previously published, or that consent to use has
been obtained on an unlimited basis; that all work or portions thereof obtained through the undersigned form third parties is original or, if previously published, that consent to use has been
obtained on an unlimited basis; that the Designer has full authority to make this agreement; and that the work prepared by the Designer does not contain any scandalous, libelous, or
unlawful matter. This warranty does not extend to any uses that the Client or others may make of the Designer's product that may infringe on the rights of others. Client expressly agrees
that it will hold the Designer harmless for all liability caused by the Client's use of the Designer's product to the extent such use infringes on the rights of others.

13. Limitation of liability

Client agrees that it shall not hold the Designer or his/her agents or employees liable for any incidental or consequential damages that arise from the Designer's failure to perform any
aspect of the project in a timely manner, regardless of whether such failure was caused by intentional or negligent acts or omissions of the Designer or Client, any client representatives or

employees, or a third party.
14. Dispute Resolution
Any disputes in excess of the maximum limit for small-claims court arising out of this Agreement shall be submitted to binding arbitration before a mutually agreed-upon arbitrator pursuant
to the rules of the American Arbitration Association. The Arbitrator's award shall be final, and judgment may be entered in any court having jurisdiction thereof. The client shall pay all
arbitration and court cost, reasonable attorney's fees, and legal interest on any award of judgment in favor of the Designer. All actions, whether brought by client or by designer will be filed
in the designer's state/county of business/residence.
15. Acceptance of terms
The signature of both parties shall evidence acceptance of these terms.
Designer: _____
Date: _____
Client: _____
Date: _____
The action of the sending and receipt of this agreement via electronic method will hold both parties in acceptance of these terms. The Designer as sender and the client as recipient will
acknowledge acceptance of these terms either through an e-mail noting acceptance or acceptance is acknowledged at the beginning of any work on said project. Electronic signatures
shall be considered legal and binding.
Company-related questions:
1. How would you describe your services and/or products?
2. What are the long term goals of your company?
3. What do you want your new website/brand/logo to accomplish? (if a new logo is wanted instead of an existing one: Why do you want a new logo?)
4. Who are your main competitors and how are you different from them?
5. What's the age range of your target customer base?
Project-related questions:
6. Do you have a tag line? If so, would you like it stated along side your logo?
7. Do you have any specific imagery, color preferences, or existing brand colors wish to used for your
logo? Any colours you prefer not to use? Alt 7. Do you have any specific imagery, color preferences,
or existing brand colors wish to used for your website? Any colours you prefer not to use?
8. How do you prefer your logo to be worded or written out? Example: snowshoeexpress or
snowshoe express
9. Where will be the primary use of your logo? Where else will it be used?

10. What's your preferred deadline, time frame, or exact date of completion and budget?11. Would you like any additional design services to be packaged with your new logo?
12. What logos appeal to you and why?

11. DECIDE WHAT PAYMENT SYSTEM YOU'D LIKE TO USE.

Since you will be swimming in money very soon, (picture Scrooge diving into his vault filled with gold coins!) decide how you will be accepting payment. Cash? Checks? Credit cards? Here's some good
online invoicing software: * Paypal * Wave
Paypal

12. CREATE YOUR WEBSITE + BLOG.

Yes, you'll see that I put the two of those together. Welcome to modern times! Now adays, having a blog for your business, (as well as an awesome website,) is kind of a MUST. Blogging allows you to
connect with your customers, educate your clients, differentiate yourself from everyone else and is a great place to show your sweet skills. Plus blogging is really fun, let's be honest. (Yeah yeah, I MIGHT
be a little biased.) Your website + blog NEEDS to be awesome and fit with your brand, so don't skimp on this! If you are not confident in creating it yourself, hire this out. (I love and use Nathan Evans as a
graphic designer!) I recommend using Squarespace unless you are tech savvy because, as someone who used Wordpress.org for SIX years, it is much easier to use and customize.
